  - Possible slight delay in video stream due to new adaptive rate feature
- Reminder of microphone etiquette.
- Minutes from RIPE 71.

Chair selection process

https://www.ripe.net/participate/ripe/wg/routing/routing-wg-chair-selection-process

The RIPE Routing Working Group should attempt to maintain two Chairpersons whenever possible. As a large part of the work of the Chairpersons is in creating an agenda for the Working Group meetings at RIPE meetings, these are generally appointed by consensus of those present at a Working Group meeting.

Each of the Chairpersons may periodically offer to stand down to allow new candidates to stand in their place. The Chairperson that wishes to stand down should announce that to the Working Group's mailing list two weeks before the meeting. Nominations for Chairpersons may be accepted up to the day before the Working Group's meeting.

- Rob Evans stepping down

- Announced at last RIPE meeting, also sent to wg list on 31 March

- One candidate has put his name forward

  - Paolo Moroni
