RIPE 72, DB-WG, 26.05.2016

# 2016-01

---

- ❑ Main discussion in AA-WG
- ❑ Currently v2
- ❑ Extends RIPE-563 (in consent with RIPE-639) to make mandatory abuse-c for all resources, including Legacy Internet Resources
- ❑ Will impact DB – less complicated business rules at the end of the proces
- ❑ Will impact DB software – dedicated friendly looking explanation instead of generic error messages
